

## Mini Mesh Bead

Galvanised Mini Mesh Beads for internal thin-coat plaster application.

### Description and Application

Available in 2.4m, 2.7m, and 3.0m lengths in galvanised material only 50 lengths per pack wrapped in plastic which can be recycled.

Mini Mesh Bead is used to reinforce and protect one-coat finish of plaster on corners at its weakest point on internal walls and plasterboard. The mesh on the bead has a greater area of expanded metal which gives a better key for the plaster.

### Specification

Mini mesh is manufactured from steel to DX 51 275g      EN 13658-1:2005

Code	Material	Length M
Mamm01	Galvanised	2.4
Mamm02	Galvanised	2.7
Mamm03	Galvanised	3.0

### Health and safety

The edge of the beads may be sharp due to the production process care should be taken when handling, use protective equipment where deemed necessary, such as gloves, and eye protection.
